DETAILED ACTION

Claims 1, 3 and 5-8 are pending and have been examined.

Allowable Subject Matter

Claims 1, 3 and 5-8 are allowed.

The following is an examiner's statement of reasons for allowance: the combined limitations of the independent claim are not taught or fairly suggested by the prior art of record singly or in properly motivated combination. The prior art of record not fairly providing such limitations as *wherein said modifying step further comprises a base component from which generated source code can be derived using object oriented inheritance language constructs* in combination with modifying the program to included first and second references as recited in the independent claim 1.

The prior art of record, **Hirao** et al., provided modifying legacy programs. However, they do not disclose a base component as claimed. Further, **Hirao** teaches away from the base component (column 2, lines 23-27, limitations of wrappers; and column 2, lines 50-61, script). Thus, in view of the prior art of record, the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
